AIRPORT COMMERCIAL GROUND TRANSPORTATION PROGRAM FEE SCHEDULE

The Santa Barbara Airport Commercial Ground Transportation Program, as set forth in SBMC Chapter 18.08.065, was adopted by City Council on July 25, 2017. The program establishes a permitting system, with associated rules, regulations, fees, and procedures for all types of commercial ground transportation operators that serve the Airport.

Ground Transportation Providers have the option to pay Annual, 30-Day or Daily Permit Fees.

The fee schedule for the Commercial Ground Transportation Program shall be as follows:

Type	Annual Permit	30-day Permit	Daily Permit Fee	Permit Replacement fee	Pickup or Drop-off Fee[1] < 10 Passengers	Pickup or Drop-off Fee[1] 10-24 Passengers	Pickup or Drop-off Fee[1] or > 24 Passengers	AVI[2]
On-demand Taxi	$1275/ vehicle[3] ($318.75/qtr.)	$110	$50.00	$25.00	n/a	n/a	n/a	At Cost

Rideshare (Uber/Lyft)	$150/ company	n/a	n/a	n/a	$3.50	n/a	n/a	

[1] Per prearranged passenger pick or drop-off at the Airline Terminal assessed on all operators except on-demand taxicabs.

[2]Automatic Vehicle Identification (AVI) system that may be required to track vehicles on Airport roadways and parking facilities.

[3]Annual fee may be paid quarterly in the amount of $318.75 per vehicle.

AIRPORT PARKING FEES

The Airport is an Enterprise Fund, generating revenue from user fees and property rentals for the operation and maintenance of the Airport. Revenues from the public parking facilities at the Airport contribute to the revenue base of the Airport to defray operating expenses.

The rates for public parking facilities at the Santa Barbara Municipal Airport shall be as follows:

SHORT-TERM LOT	
0-10 minutes	Free
16 minutes – 1 hour	$5.00
Each additional hour or fraction thereof	$5.00
Maximum – 24 hours	$32.00

LONG-TERM LOT		ECONOMY/OVERFLOW LOT

Airport Department Permit Fees

The SBMC Chapter 18.08.030 states that It is unlawful for any person to engage in any business or commercial activity or provide any service on the Airport unless such person has a fixed place of business or a specific operating area assigned by the Airport Director on the Airport which is occupied by virtue of a lease, operating permit, license or rental agreement with the City of Santa Barbara permitting such activity, as recommended by the Airport Commission, and as required and approved, if necessary, by the City Council. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2, 1971)

The fee schedule for the Airport Permits shall be as follows:

Type	Annual Permit	Daily Permit
Special Event[1]	N/A	$300
Aviation Commercial Activity Permit[2]	$650	N/A
Aviation Non-commercial Activity Permit[3]	$650	N/A

[1] A Special Event is defined as meeting any of the following criteria:

- Road closures, use of airport streets
- Tickets for entry or participant fees
- Requiring security or law enforcement
- 75 or more attendees
- Erection of fencing, tents, stages, barricades, booths, or other structures
- Use of sound amplification equipment
- Service of alcoholic beverages
- Use of any facilities on Airport Property

[2] An Aviation Commercial Activity is defined as:

- An Aeronautical Activity conducted by an entity or person for the purpose of securing earnings, income, compensation, or profit, whether or not such objective(s) is accomplished. (Examples include but are not limited to; Independent Flight Training Operator, Independent Aircraft Detailer or Washer, Independent Aircraft Maintenance or GSE Operator, Independent Avionics or Instrument Maintenance Operator, etc.)

[3] An Aviation Non-commercial Activity is defined as:

- An Aeronautical Activity conducted by an entity or person that is not for profit. (Examples include but are not limited to Fly-ins, Flying Clubs, Air Shows, etc.)

Commercial Filming/Photoshoot)	
Type	Daily Permit
Feature/TV/Commercial/Movie Filming (1-20 cast & crew)	$1,300.00
Feature/TV/Commercial/Movie Filming (21+ cast & crew)	$2,500.00
Commercial Photoshoot	$1,200.00
Monitoring Fee[4]	$113.00/hour

[4] Based on security requirements as determined by the scope of the permit application. The monitoring fee shall be added for the duration of the filming/photoshoot hours that are in the Air Operations Area (AOA).

The increased fees and charges, set forth in Sections 1, 2 and 3 hereof, shall become effective not less than sixty (60) days after final adoption of the resolution approving such fees and charges.

The City's Community Development Department provides important services to the public in the areas of construction safety, planning, housing, and land use. The department has four divisions: Planning, Building and Safety, Housing and Human Services, and Administration, as well as numerous boards and committees.

The Community Development Director, or staff designee, will make the final calculation and determination of required fees specific to each project. Some services are charged based on hourly rates with a required deposit. For site development, activities areas, or combination of structures and/or site changes, the fee per square footage is not limited to the building area, and may involve the site area as determined by staff.

In addition to the base fee amounts listed below, there are additional fees that are applied. A Cashier Services fee is applied to transactions of more than $200, a Records Management fee is applied to most fees listed in Section 1 (Planning Division Fees) and Section 2 (Building and Safety Fees), a Technology Fee is applied to building permit fees, and a Growth Management fee is applied to building projects that create new square footage or the demolition and rebuilding of existing square footage. The current fee amounts for these items can be found in Section 3 (Other Fees).

SECTION 1. PLANNING DIVISION FEES

GENERAL INFORMATION

- In addition to the base fees listed below, a Cashier Services fee of $17 is applied to each transaction of more than $200, and a 7% Records Management fee is applied to most Planning Division fees
- Fees for projects involving alterations and additions are calculated by determining the alteration fee and addition fee based on square footage totals and applying the higher fee.
- Projects involving multiple main buildings or phased improvements may require separate fees for review of each building.
- For new mixed-use projects, calculate fees for both residential and non-residential elements and charge both fees; for alterations/additions to mixed-use projects, charge the greater of either the residential or non-residential fee.
- All other services not specifically identified in the fee schedule will be charged at the applicable hourly rate.

SECTION 3. OTHER FEES

		Current Fee	Proposed Fee
1. Strong Motion Instrumentation and Seismic Hazard Mapping Fee (State of CA)		State of CA Fee	No Change

(a) All applicants for building permits within the City shall pay a fee to the City for transfer to the State to implement the State's earthquake monitoring program. This fee shall be paid by the applicant to the City in an amount determined in accordance with the State's fee methodology set forth below:

(1) Group R occupancies, as defined in the California Building Code (Part 2 of Title 24 of the California Code of Regulations), one to three stories in height, except hotels and motels, shall be assessed at the rate of thirteen dollars ($13) per one hundred thousand dollars ($100,000) of construction valuation, with appropriate fractions thereof.

(2) All buildings not included in paragraph 1 above. For example, residential buildings over 3 stories, all office buildings, warehouses, factories and other manufacturing or processing facilities, restaurants, and other non-residential buildings, shall be assessed at the rate of twenty-eight dollars ($28) per one hundred thousand dollars ($100,000) of construction valuation, with appropriate fractions thereof.

(3) The fee shall be the amount assessed under paragraph (1) or (2), depending on building type, or fifty cents ($0.50), whichever is greater.

2. Building Standards Commission Fee (State of CA)		State of CA Fee	No Change

The City shall collect a fee from any applicant for a building permit, assessed at the rate of four dollars ($4) per one hundred thousand dollars ($100,000) in construction valuation, as determined by the local building official, with appropriate fractions thereof, but not less than one dollar ($1).

The City may retain not more than 10 percent of the fees collected under this section for related administrative costs and for code enforcement education, including, but not limited to, certifications in the voluntary construction inspector certification program, and shall transmit the remainder of the funds to the California Building Standards Commission for deposit in the Building Standards Administration Special Revolving Fund established under Health & Safety Code Section 19831.7.

Fees are required to be assessed as follows:

Building Permit Valuation	Fee
$1 – 25,000 or fraction thereof	$1
$25,000.01 – 50,000 or fraction thereof	$2
$50,000.01 – 75,000 or fraction thereof	$3
$75,000.01 – 100,000 or fraction thereof	$4
Every $25,000.01 or fraction thereof above $100,000	Add $1

3. Investigation Fees (including code enforcement, building, electrical, plumbing, mechanical, energy, accessibility, grading, requested site investigations and any form of investigation NOT specifically associated with an active permit)		Total Hours	No Change

Investigation fee = Total hours that the assigned inspector logged for acquiring access and the field Investigation of the matter reported.
(Minimum charge - one hour)

4. Technology Fee		8%	No Change

Fee covers maintenance, hardware, and upgrades of software for the permit tracking system.

Fee: 8% of total permit fee

5. Growth Management/General Plan Update Fee		11%	No Change

Fee: 11% of total building permit fee (plan check and inspection)
(This fee applies only to projects that create new square footage or the demolition and rebuilding of existing square footage. Child care centers and 100% affordable restricted housing projects are exempt from this fee.)

6. Building and Fire Code Board of Appeals Hearing/Ratifications (This fee is not used for Administrative Citation Appeal Hearings)	$ 290	$277	$290
7. Temporary Certificate of Occupancy (TCO) Fee	$ 1,250	$1,191	$1,250

	Current Fee	Proposed Fee

This represents 3 hours of additional staff time, beyond the normal field inspection time, that is often needed to re-inspect and remind TCO holders of the need to obtain their Certificate of Occupancy. TCO holders that obtain their Certificate of Occupancy without using all 3 additional hours of City staff time will receive a refund of this fee based on the unused portion of the 3 additional hours.

8. Archived Plans Duplication and Processing Fees

Fees authorized by the State Health and Safety Code to provide for the processing, retention, and storage of duplications of construction plans by local jurisdictions shall be:

Fiscal Year 2027
SCHEDULE OF FEES AND CHARGES

Deleted: 2026

The City Administrator or the Administrator's designee is authorized to make upward or downward adjustments in fees and charges set by this resolution to accommodate fluctuation in program costs and demand and to allow for flexibility in providing programs and services, including fee reductions associated with strategically designed, short-term promotions intended to increase participation in particular programs or activities. This authorization does not apply to Arts and Craft Show permit fees. Fees for new programs and services established during the course of the fiscal year, if not consistent with existing comparable program fees, shall require City Council approval.

Deleted: The City of Santa Barbara offers one-stop photo and film/video permitting with Parks and Recreation as the lead department accepting applications, collecting fees, issuing the permits, and coordinating as many internal logistics among City departments such as Police, Fire, Public Works and Waterfront as possible for administrative convenience.¶
¶
Fees for photo and film/video shoots include both permit and "facility use" fees. Permit fees apply to all photo and film/video shoots. If you plan to shoot in a City park, beach, Stearns Wharf or the Harbor, a facility use fee is charged, in addition to the permit fee. Fee rates depend on the location where photography or filming occurs. See the applicable Facility Use Fee charts below.¶
¶
In situations where City personnel may be required to be present during the shoot, a fee for staff will be charged. See the Staff and Miscellaneous section below for further information.¶

PARKING VIOLATION PENALTIES AND RELATED FEES

Assembly Bill 408, effective July 1, 1993, amended the California Vehicle Code (Vehicle Code) to decriminalize parking tickets and to eliminate criminal court procedures for the enforcement of such violations, such that the issuance, collection and enforcement of parking or standing vehicle violations became a civil matter under the California Vehicle Code.

Section 40203.5 (a) of the Vehicle Code requires the City Council to establish a schedule of parking penalties for parking violations, late payment penalties, administrative fees, and other related charges for parking violations. It is the intent of the City of Santa Barbara that the penalties established herein shall reflect a reasonable and good faith effort to establish appropriate penalties.

Parking violation penalties for violations of the Santa Barbara Municipal Code or the California Vehicle Code that are not specifically listed below, or that may be added to the Municipal Code after adoption of this Fee Schedule, shall be $55 if paid within 30 days of the notice of violation, unless a different penalty amount is established by the California Vehicle Code.

Deleted: The parking violation penalties for the Santa Barbara Municipal Code and California Vehicle Code violations not listed below shall be $55 if paid within 30 days of the notice of violation, unless the penalty amount is set by the Vehicle Code of the state of California.¶

Additional fees listed elsewhere include: temporary traffic control and penalties.
*Application fees are for review of sites by Engineering and Planning only. Additional fees for trenching or other inspections may apply.
**This fee is set to raise by 2% annually and is generally included in the respective license agreements.

Outdoor Dining Permit Fees

Outdoor dining licensees shall pay an annual license fee for the renewed use of the public sidewalk for an additional year. The annual license fee shall be as shown below and shall be charged on the basis of the City's fiscal year (July 1st - June 30th). Cash security may be required per SBMC 9.95 for restoration of sidewalk and an estimate may be determined and prepared by City Engineer. Cash will be returned to the license holder in the event of license termination or when restoration of the sidewalk is adequately completed. If the sidewalk is not adequately restored, the City will use the cash to complete the work.

These fees are for staff cost recovery of processing sidewalk dining application only and does not address State Street outdoor business expansion or parklets.

SEWER RATES AND FEES

Title 14 of the Santa Barbara Municipal Code authorizes the City Council to set water and sewer service charges;

Section 14.40.010 of the Santa Barbara Municipal Code authorizes the establishment by resolution of sewer service charges; and

Title 16 of the Santa Barbara Municipal Code authorizes the City Council to control and regulate discharges into the sewer system and to establish quantity standards, fees, and controls for dischargers.

I. Definitions

Wherever used in this resolution, the following words shall have the meanings set forth beside them:

A. "Composite sample." Two or more aliquot samples taken from the same waste stream over a period longer than fifteen (15) minutes.

B. "Director." The Director of the City Water Resources Department or his or her designated representative.

Deleted: Public Works

C. "Hcf." 100 cubic feet.

D. "Sewer" or "City sewer system." Any and all artificial conduits owned and operated by the City or any other public agency that are tributary to any wastewater treatment facility operated by the City.

E. "Person." Any individual, partnership, co-partnership, firm, company, association, corporation, joint stock company, trust, estate, government entity, or any other legal entity, or their legal representatives, agents, or assigns. This definition includes all Federal, State, and Local government entities.

F. "Waste." Sewage and any and all other waste substances, liquid, solid, gaseous, or radioactive, associated with human habitation, or of human or animal origin, or from any producing, manufacturing, or processing operation of whatever nature.

G. "Wastewater." Waste or water, treated or untreated, which is discharged into or permitted to enter a sewer.

H. "Connection" or "Wye." The fitting or element of the sewer lateral that conveys the private sewage to the publicly maintained sewer.

II. Sewer Service Rates

The following monthly rates and charges shall apply to use of sewers by the following categories of customers:

A. Residential Service Charges

1. Applicable to all accounts serving one detached dwelling unit:

i. Fixed charge:

	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
Fixed Charge	$29.90	$32.74	$35.85	$39.26

ii. Plus, charges based on the quantity of water consumed, up to the account cap:

	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
Up to Cap	$4.53/HCF	$4.96/HCF	$5.43/HCF	$5.95/HCF
Over Cap	No additional charge	No additional charge	No additional charge	No additional charge
Cap	8 HCF	8 HCF	8 HCF	8 HCF

2. Applicable to all accounts serving two to four dwelling units, Accessory Dwelling Units served by their own City water meter, and all accounts serving a dwelling unit attached to no more than three additional dwelling units:

i. Fixed charge per dwelling unit on account:

	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
Fixed Charge (per Dwelling Unit)	$29.90	$32.74	$35.85	$39.26

ii. Plus, charge based on the quantity of water consumed:

	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
Volumetric Charge	$4.53/HCF	$4.96/HCF	$5.43/HCF	$5.95/HCF

3. Applicable to all accounts serving five or more dwelling units, and to accounts serving a dwelling unit attached to four or more additional dwelling units.

i. Fixed charge per dwelling unit on account:

	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
Fixed Charge (per Dwelling Unit)	$29.90	$32.74	$35.85	$39.26

ii. Plus, charge based on the quantity of water consumed:

	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
Volumetric Charge	$4.53/HCF	$4.96/HCF	$5.43/HCF	$5.95/HCF

4. A residential account serving a single detached dwelling unit that does not receive City water service shall be charged the maximum rate for the appropriate category, regardless of the quantity of water used, except to the extent that water usage for the account is reported to the City on a monthly basis by the water service provider in a manner prescribed by the City.

5. For residential properties that are City sewer customers but are not City water customers, and whose water service provider does not provide the City with monthly water usage data in a manner prescribed by the City, and who are classified as multi-unit residential because of the construction of additional dwelling units or accessory dwelling units that are not a part of the primary dwelling, the bill shall be calculated by multiplying the maximum bill for the single family residential class times the number of dwelling units on the property.

B. Commercial Class

Applicable to all light commercial uses, including, but not limited to, office/professional buildings, banks, institutional and public buildings, schools, colleges, day cares, churches, retail and department stores, utilities/water companies, light manufacturing, auto sales/repair/storage, car washes, warehouses, packing plants, parks, recreation, golf courses, auditorium/stadiums, clubs/lodge halls, parking lots, nurseries and greenhouses, care facilities, common areas of condominium projects, community apartment projects, and mobile home parks; mixed use (commercial and residential) projects; industrial condos, hotels; bed and breakfasts; service stations; miscellaneous industrial uses; construction-related activities; lumber yards/mills; heavy industry; mineral processing; self-service laundry; hospitals; tasting rooms that do not manufacture alcoholic beverages onsite; shopping centers, both regional and neighborhood, and self-service laundry facilities located within multi-family housing complexes provided that the discharge characteristics are limited to wastes typical of other uses in this class, the greater of:

Deleted: rest homes

$/HCF	$6.56	$7.18	$7.86	$8.61

Commercial Properties Without City Water Usage Data
For commercial properties that are City sewer customers but are not City water customers, and whose water service provider does not provide the City with monthly water usage data in a format and at a frequency acceptable to the City, the City may determine the quantity of water deemed discharged to the sewer system for billing purposes based on reasonable estimates. Such estimates may rely on factors including, but not limited to, (i) the type of business conducted on the property, (ii) industry-standard water use factors, and/or (iii) water usage or wastewater discharge characteristics of properties with similar uses and wastewater needs. The estimated quantity shall be used solely to calculate sewer service charges and shall be adjusted prospectively if more accurate consumption or discharge data becomes available.

Deleted: For commercial properties that are City sewer customers but are not City water customers, and whose water service provider does not provide the City with monthly water usage data in a manner prescribed by the City, the City may estimate the quantity of water consumed for billing purposes based on the business type and/or properties with similar wastewater discharge needs.¶

Or

2. Charge based on water meter size:

10”	$3,812.83	$4,175.08	$4,571.83	$5,005.95

D. The quantity of "water consumed" refers to the quantity of metered water service, other than through irrigation meters, provided monthly to a parcel having one or more connections to the City sewer system.

1. Where the quantity of wastewater which enters the sewer connection(s) to a particular parcel is substantially less than the quantity of metered service to the parcel, a sewer service customer shall be charged only for the quantity of wastewater discharged to the sewer connections to the customer's property, provided the customer demonstrates annually to the satisfaction of the Director the amount of wastewater actually discharged monthly and annually from the property to the City sewer system.

2. Where the quantity of wastewater which enters the sewer connection(s) to a particular parcel is substantially more than the quantity of metered water service to the parcel, the sewer service customer shall be charged for the quantity of wastewater actually discharged to the sewer connections to the customer's property. The customer shall demonstrate monthly to the satisfaction of the Director the amount of wastewater actually discharged monthly and annually from the property to the City sewer system.

The above sewer charges shall be billed (i) effective the date of the sewer connection or (ii) as otherwise provided by written agreement of the customer and the Director.

E. Wastewater High Strength Surcharges($/lb)

Deleted: LB

If the City’s Water Resources Laboratory determines that a customer has exceeded the high strength discharge limit for Biochemical Oxygen (BOD), Total Suspended Solids (TSS), or Ammonia, a surcharge will be assessed for each constituent in excess of its relative limit.

	Effective July 2, 2024	**Effective July 1, 2025**	**Effective July 1, 2026**	**Effective July 1, 2027**
BOD (>750 mg/l)	$0.30	$0.33	$0.36	$0.39
TSS (>850 mg/l)	$0.58	$0.64	$0.70	$0.77
Ammonia (>90 mg/l)	$1.37	$1.50	$1.64	$1.80

F. An account holder may request a change to their customer classification by filing a written request with the Water Resources Director. The request must identify the requested classification and contain a detailed statement supporting the change based on water use patterns, wastewater strength characteristics, or other sewer service characteristics. The Director will document a decision on the request in writing. Any change in classification approved by the Director will go in effect upon commencement of the next complete billing cycle. The decision of the Director is final and not subject to appeal. The Director may delegate the authority under this provision.

Deleted: Public Works

In the case an account classified as multi-unit residential (section II.A.2 or II.A.3) is approved to be reclassified to a single family residential account (section II.A.1), the fixed charge shall be equal to the fixed charge stated in II.A.1.i times the number of dwelling units on the account. The account cap shall be equal to the volume specified in II.A.1.ii multiplied by the number of dwelling units on the account.

III. Industrial Waste Pretreatment Program Charges

Every Person required to obtain a permit under Title 16 of the Santa Barbara Municipal Code shall be required to pay fees and charges as set forth below:

A. For each permit application submitted, a permit application fee is applicable. The fee includes application processing, site visit, verification of submitted information, permit processing, reports, and invoicing.

1. $211 per permit.
2. $131 additional fee will apply in the event of an incomplete application or resubmittal, a permit modification request, or if review from multiple departments is necessary.

connections. The three options are outlined below.

1. Option 1: Standard Sewer Connection Installation/Replacement. This option and associated charges are only for the replacement of the lateral connection by the City contractor after the property owner's appropriately licensed/permitted contractor has excavated at the location of connection to the City main. The following charges cover the cost of the City's contractor to make the replacement of the fitting from the private lateral to the City sewer system and shall apply for each connection of a sewer lateral to the City sewer system, and shall be in addition to any applicable capacity charges:

Sewer Lateral Diameter	Sewer Main Diameter	Fee
4" or 6"	6" or 8"	$1,050
	10" or 12"	$1,650
	14" or greater	$2,100
	6" or 8" (rehab or HDPE)	$995

Applicants for such connections shall coordinate with City staff in advance of the appointed installation time to determine required site preparations. If City staff determines that such preparation is not complete at the scheduled start time, a rescheduling fee of $950 will be charged and the connection will be rescheduled upon payment of such fee.

2. Option 2: Complete Sewer Connection Installation/Replacement. This option and associated charges cover the complete cost of the new lateral connection installation or replacement, including all permits, coordination and project management, excavation (up to 8 feet deep), and inspection services. The following charges shall be in addition to any applicable capacity charges:

Sewer Lateral Diameter	Sewer Main Diameter	Fee
4" or 6"	6" or 8"	$9,125
	10" or 12"	$10,500
	14" or greater	$13,250
	6" or 8" (rehab or HDPE)	$9,125

For connections between 8-12 feet deep, an additional $4,500 will be added to the

sewer installation fee charge. Connections over 12 feet deep will be charged based on time and materials.

This option requires locating and dye testing the sewer lateral connection at the current rate in VI.A.2. City staff to determine eligibility of this option after sewer lateral location has been identified.

If in the course of the scheduled wye replacement, an additional service connection is encountered and the property owner elects to replace it at the time of excavation, the additional connection may be replaced for an additional $625 per connection, regardless of the lateral or main size.

3. Option 3: Sewer Lateral Connection Rehabilitation: For lateral connections that are in a condition eligible for rehabilitation and are on a lined sewer main, or are part of a proposed capital improvement project, a "trenchless" sewer lateral connection sealing device can be installed by the City's contractor, with Wastewater System Manager approval. The cost for installing a lateral connection sealing device, including coordination and project management by City Staff: $2,400 per device on a 6" sewer main; $3,000 per device on 8" and above sewer main.

B. If a sewer main is damaged during installation or replacement of a lateral or during other similar work affecting City sewer lines, an additional fee equal to the greater of: $322 per lineal foot of sewer line needing repair or replacement, or $490 per hour plus the cost of materials including fifteen percent markup, shall be charged to the person(s) who caused such damage.

C. The City has two methods for the abandonment of sewer lateral connections. The two options are outlined below.

1. Sewer Lateral Connection Abandonments (Option 1): This option and associated charges are only for the removal of the lateral connection by City contractor after the property owner's appropriately licensed/permitted contractor has excavated at the location of connection to the City main. Cost for the City's contractor to remove the lateral connection and replace it with a like piping of the City maintained sewer main is as follows.

Sewer Lateral Diameter	Sewer Main Diameter	Fee
4" or 6"	6" or 8"	$1,050
	10" or greater	$2,250

2. Complete Sewer Connection Abandonment (Option 2): This option and associated

charges cover the complete cost of the lateral connection abandonment by the City contractor, including all permits, coordination and project management, excavation (up to 8 feet deep), and inspection services. Cost for the City's contractor to excavate, remove the lateral connection and replace it with a like piping of the City maintained sewer main is $9,125 per abandonment on any size sewer mains.

For connections between 8-12 feet deep, an additional $4,500 will be added to the sewer installation fee charge. Connections over 12 feet deep will be charged based on time and materials.

This option requires locating and dye testing the sewer lateral connection at the current rate in VI.A.2. City staff to determine eligibility of this option after sewer lateral location has been identified.

V. Wastewater Discharge Other Than Through an Approved Sewer Connection.

The following service charge shall apply to all discharges of wastewater permitted pursuant to Municipal Code Section 16.04.080 and 16.04.090:

A. $16 per 100 gallons. Charges shall be assessed on the metered discharge or on the rated capacity of the tank discharging the wastewater if no meter is available.

Deleted: $15

B. Every Person required to obtain a temporary discharge permit under Title 16.08.120 of the Santa Barbara Municipal Code shall be required to pay fees and charges as set forth below.

A permit fee is applicable for each temporary discharge permit application submitted. The fee includes application processing, site visit, verification of submitted information, permit processing, reports, and invoicing:

1. $211 per permit.
2. $131 additional fee will apply in the event of incomplete application/resubmittal, permit modification request, or if review from multiple departments is necessary.
3. In the event of any unplanned or emergency discharges that are not in compliance with its permit conditions, additional fees or charges may apply (See Section VI.A. Wastewater Miscellaneous Fees.)

VI. Wastewater Miscellaneous Fees

A. The following service charges shall apply for services of City wastewater staff upon application of a property owner, contractor, or other applicant, or where such services are deemed necessary by City staff to prevent or mitigate damage to the City collection system or violation of regulations related to the collection system:

1. Hourly rate for a two-person crew with heavy duty equipment, including emergency response, containment, control and recovery, data input, and reporting related to a private sewer lateral overflow or a sanitary sewer overflow or blockage caused by a private party where that party can clearly be identified: $485 per hour.

2. Hourly rate for a two-person crew with light duty equipment to respond to priority sewer related requests that do not constitute an emergency response, including CCTV inspection, locating and dye testing services for a sewer main or sewer lateral connection: $332 per hour.

B. Lateral Liner Inspection Fee: For applicants seeking to rehabilitate their private sewer laterals using cured in place pipe, or other lining technology, a $211 fee will be assessed for the lateral installation inspection and pre- and post-video review by City staff. Applicants for such lateral liner installation shall coordinate with City staff in advance of the appointed installation time to determine required site preparations. If City staff determines that such preparation is not complete at the scheduled start time, a rescheduling fee of $67 will be assessed, and the installation will be rescheduled upon payment of such fee.

C. Sewer Lateral Video Review for Building Permits: When an applicant is required to complete a sewer lateral inspection video as a condition of a building permit, an $106 fee will be assessed for each video reviewed by City staff.

WATER RATES AND FEES

Title 14.08 of the Santa Barbara Municipal Code authorizes the City Council to set fees for water meters and water service;

Section 14.12.010 of the Santa Barbara Municipal Code authorizes the City Council to set the rate for City water for private fire services when the use of a meter is not required; and

The City does currently and wishes to continue to have in effect a water rate structure that reflects an adequate supply of water and promotes the efficient use of such water by its customers.

1 Definitions

Wherever used in this resolution the following quoted words shall have the meanings set forth below:

1.1 **"Account holder"** means the person or entity responsible for payment for water service at a particular property, as shown in the City's water billing records.

1.2 "**Master Meter"** or "Auxiliary Master Meter" is defined in Santa Barbara Municipal Code 14.04.020

1.3 "**Base allotment**" means the average monthly consumption on record with the City for the most recent complete off-peak period calculated assuming the maximum days in a monthly billing cycle, or such other level of consumption determined by the Director to represent the average monthly off-peak water usage by a particular customer. An off- peak period for any given customer shall be a period comprised of the service periods charged on bills dated January through June.

1.4 **"Director"** means the Director of the Department of Water Resources, or their designated representative.

Deleted: Public Works

Deleted:

1.5 "**Dominant use**" means for any meter serving multiple uses, such as an existing meter serving both a residence and a commercial establishment, the use consuming the most water on average. In cases where a meter serves more than one type of use, the meter will be classified based on the dominant use for billing purposes.

1.6 "**HCF**" means one Hundred Cubic Feet.

1.7 "**Service**" or "water service" means water provided by or through the water distribution facilities of the City.

2 Water Service Rates and Classifications

The following provisions shall govern all fees related to water service for metered connections to the City water system:

2.1 MONTHLY SERVICE CHARGES

A monthly service charge shall be collected for all connections, including City submeters, without regard to actual water use. Unless a master meter serves water directly to a dwelling unit without water passing through a City submeter, a monthly service charge shall not be collected for a City master meter. The monthly service charges shall be as follows ($/meter/month):

Water Meter Size	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
5/8"	$36.21	$40.01	$44.01	$48.41
3/4"	$52.50	$58.01	$63.81	$70.19
1"	$85.09	$94.02	$103.42	$113.76
1 1/2"	$166.55	$184.04	$202.44	$222.68
2"	$264.30	$292.05	$321.26	$353.39
3"	$573.86	$634.12	$697.53	$767.28
4"	$1,030.06	$1,138.22	$1,252.04	$1,377.24
6"	$2,121.66	$2,344.43	$2,578.87	$2,836.76
8"	$3,913.84	$4,324.79	$4,757.27	$5,233.00

2.2 MASTER METER (AUXILARY MASTER METER) OPERATIONS AND MAINTENANCE FEE

Unless a master meter directly serves water to a dwelling unit without water passing through a City submeter, a monthly operations and maintenance fee shall be collected for master water meters, without regard to actual water use, if any, as follows ($/meter/month):

Size of Master Meter	Effective July 2, 2024	Effective July 1, 2025	Effective July 1, 2026	Effective July 1, 2027
2"	$54.00	$54.86	$56.40	*
3"	$67.00	$68.07	$69.98	*
4"	$67.00	$68.07	$69.98	*
6"	$76.00	$77.22	$79.38	*
8"	$80.00	$81.28	$83.56	*

* Charges shall be escalated annually based on the change in the January Engineering News Record (ENR) Construction Cost Index (CCI) 20-City Average from the previous year. For example, if the January 2027 ENR CCI is 3% higher than the January 2026 ENR CCI, then the Master Meter Operations and Maintenance Fee would increase by 3% in July 2027 (start of FY28).

2.3 USER CLASSIFICATIONS

For the purposes of assessing metered water charges provided for below, user classifications shall be determined and corrected by Staff, using the categories below. Any meter serving multiple uses shall be classified based on the dominant use.

2.3.1 Residential Single Family

Applicable to all meters serving one detached dwelling unit that is not an accessory dwelling unit.

2.3.2 Multifamily 1-4 Units

Applicable to all meters serving two to four dwelling units, all meters serving one attached dwelling unit, and all meters serving only an accessory dwelling unit.

2.3.3 Multifamily Over 4 Units

Applicable to all meters serving five or more dwelling units.

2.3.4 Commercial

Applicable, without regard to meter size, to all accounts serving mercantile buildings, motels, and other short term lodging establishments, office buildings, institutional buildings, schools, churches, and other commercial establishments. Also applicable to accounts solely serving common areas on multifamily or mixed use properties including but not limited to communal laundry rooms.

2.3.5 Industrial

Applicable to all meters serving laundries (other than self-service laundries), manufacturing facilities, and other industrial facilities.

2.3.6 Irrigation-Potable

Applicable to meters limited to outdoor water use and subclassified as provided in subsections 2.3.6.1 through 2.3.6.4 below. All meters under this classification shall be subject to interruption upon declaration of a Stage Three Drought Condition. There shall be no connection between a meter served under this classification and any dwelling or commercial or industrial structure.

The first tier of all irrigation accounts shall be calculated using the following formula:
Monthly Water Budget = (ETo)(.62/748)((PF x HA)/IE))
Where
ETo = Reference evapotranspiration (weather factor)
0.62/748 = Conversion factor (inches to HCF)
PF = Plant factor
HA =Square footage of irrigated area(s) IE
= Irrigation efficiency (80%)

The Monthly Water Budget shall be determined using real-time monthly ETo data from a local weather station, plant factors that relate plant type water use needs to the ETo, and irrigated area by plant type. Irrigation system efficiency is set at a constant value of 80% for all account types.

Monthly Water Budgets shall be based on irrigated area only. Accounts shall be subject to mandatory ground-truthing measurement at Staff discretion to verify measurement accuracy of irrigated areas and plant types. If ground-truthing measurements are not completed within two months after initial contact due to lack of customer response, service may be subject to suspension until irrigated landscaped areas are verified in the field.

2.3.6.1 Irrigation-Agriculture

Applicable only to Potable Irrigation meters that serve bona fide commercial agricultural enterprises, including nurseries. A bona fide commercial agricultural enterprise is one that grows and sells one or more type of agricultural or horticultural products, for the purpose of producing income from the sale of these products. The amount of water made available in the first tier of metered water usage under this sub-classification shall be based on the square footage of the commercial crop area that is planted and irrigated as part of the enterprise. As a condition of the right to receive Irrigation-Agriculture service, the Director may require an Account holder to submit to the Director any documentary or other evidence necessary to establish to a reasonable degree of certainty that the property served by the meter is being used to conduct a bona fide commercial agricultural enterprise as defined above. Such evidence may include tax returns, bills of sale, or similar documents.

PFc = 75%

HAc = total crop irrigated area (square feet)

If the crop is a tree species the crop irrigated area is the number of irrigated trees multiplied by the average tree area. The average tree area is the area of a circle with a diameter equal to the average diameter of the drip line of the relevant species. An alternate method to calculate the irrigated area may be used as approved by the Director.

2.3.6.2 Irrigation-Recreation

Applicable only to Potable Irrigation meters that serve areas used primarily for passive or active recreational purposes, including parks, playgrounds, golf courses, school yards, and publicly owned open spaces and landscaped areas. Cemeteries also meet the parameters of this classification. The amount of water made available in the first tier of metered water usage under this sub-classification shall be based on the square footage of the irrigated area served by the meter.

HAt = total irrigated turf area (square feet) Turf PFt = 80%

HAs = total irrigated shrub area (square feet)

Shrub PFs = 30%

2.3.6.3 Irrigation-Urban (Residential / Commercial):

Applicable to Potable Irrigation meters serving properties that are primarily residential in use or are zoned for residential use or commercial, industrial, or institutional in use. The amount of water made available in the first tier of metered water usage under this subclassification shall be based on the square footage of the irrigated area served by the meter.

HAt = total irrigated turf area (square feet)

For Residential Irrigation, HAt cannot exceed 20% of total irrigated area. If measurements are greater than 20%, the remainder square footage will be assigned to the HAs.

PFt = turf plant factor = 80%.

HAs = total irrigated shrub area (square feet)

For Commercial Irrigation, 100% of total irrigated area is considered HAs, unless a permitted exception of Water Efficient Landscape Standards has been approved.

PFs = shrub plant factor = 30%.

Plant Factor percentage allotments reflect the requirements of the City's Water Efficient Landscape Standards per SBMC 14.23.005.

2.3.6.4 Bird Refuge

Upon finding that there are adequate water resources available to allow such use, the Director may also authorize the sale of up to a total of 21,780 HCF (50 acre feet) per year at the first block recreation rate for use in refilling the Andre Clark Bird Refuge.

2.3.7 Recycled Water

Applicable to all meters providing recycled water.

2.4 METERED WATER CHARGES

In addition to all other charges imposed by Chapter 14.08 of the Santa Barbara Municipal Code, including but not limited to the monthly service charges set forth in subsection 2.1 above, water use shall be charged according to the following block rates for those user classifications defined in subsection 2.3 above. Usage shall be measured in units of 100 cubic feet (HCF).

The allocation of the City's six water sources to customer classes and tiers is based on priority level. Each tier is charged the weighted average cost of water based on the allocated sources. The highest priority customer tiers receive the least expensive sources of water, limited to that tier's percentage of each priorities' total demand times the water source (or remaining water

source remaining from a higher priority).

1. Tier 1 Agriculture. The highest priority use is allocated to tier 1 agriculture (Ag) for efficient agricultural purposes.
2. Tier 1 Residential Single Family (SFR)/Tier 1 Residential Multi-family (MFR)/Tier 1 Recreation (Rec) for essential health and safety purposes and efficient irrigation of parks and public spaces.
3. Tier 1 Commercial/Industrial for efficient use of commercial and industrial purposes.
4. Tier 2 Residential SFR/MFR and Tier 1 irrigation for efficient irrigation needs for residential/commercial with dedicated irrigation meters.
5. Tier 2 Ag/Tier 2 Rec/Tier 3 Residential/Tier 2 Irrigation for residential and commercial dedicated irrigation meters/ Tier 2 Commercial or Industrial for inefficient use for agricultural, recreation, residential, commercial, or industrial purposes

3 Water Service Policies and Miscellaneous Fees

3.1 FAILURE TO CONNECT TO RECYCLED WATER SYSTEM

Where the Director has determined that use of recycled water is feasible at and on a particular property and has notified the account holder for the meter serving such property of this fact as described in Section 14.23.030 of the Santa Barbara Municipal Code, and thereafter the user has failed to substitute recycled water use for potable water use, the charge for provision of potable water use shall be double the otherwise applicable charge for metered water.

3.2 NOT USED

3.3 WATER CONSUMPTION ESTIMATES

If an accurate meter reading is not obtained for any reason, including but not limited to, inability to access the meter and/or meter failure, the water consumption for the time period where the water meter read is not available may be estimated. If access is the issue, then estimation may only occur after two separate attempts within one reading cycle to gain access. If meter failure

is the issue, then the water consumption will not be estimated for more than 90 days, unless plumbing on the customer side must be addressed prior to meter replacement or with mutual consent of the City and the customer.

City staff will utilize estimating functionality within the billing system to estimate use based on the six billing periods that most closely correspond to the time frame from the prior calendar year. The calculated daily average is multiplied by the number of days in the reading period where the meter read is not available to determine an estimated consumption for the reading period. Should there not be sufficient usage history on the customer's account, the last actual meter read will be used.

Once the water meter is repaired or replaced, if the customer's water consumption is found to be significantly lower than the estimated consumption calculation after three full months of meter reads on the new meter, the customer may request an evaluation of the estimated consumption calculation and consideration of a billing adjustment.

3.4 MISCELLANEOUS SERVICES

3.4.1 Service and Administration Fees

The following miscellaneous fees related to water service shall be charged and collected upon demand:

Fee Key	Fee Description	Fee Amount
3.4.1.1	Service Initiation Fee	$68.00
3.4.1.2	Service Restoration Fee	$68.00
3.4.1.3	Administrative Account Transfer Fee	$21.00

4 Non-Metered Private Fire Services

Payable monthly, the rates for City water for private fire services when the use of a meter is not required pursuant to Section 14.12.010 of the Santa Barbara Municipal Code shall be as follows:

Size of Service	Monthly Rate Effective July 2, 2024	Monthly Rate Effective July 1, 2025	Monthly Rate Effective July 1, 2026	Monthly Rate Effective July 1, 2027
1”	$4.67	$5.16	$5.68	$6.25

12"	$727.20	$803.56	$883.92	$972.31

Upon a determination that unauthorized use of water through a fire service or other private main connection has occurred, the Director may assess a fee for each HCF of such use at a rate applicable to use of water on the lot.

Deleted: equal to twice the rate for the first block allotment for Commercial customers.

5 Water Service Connections

All determinations of the size and location of water service connections, water main connections, and meters shall be subject to the approval of the Director. All water service connections must be installed per City standard details. If not, the customer shall be charged at a time and materials basis for the service to be brought up to City standards.

The Director may waive the fee for a service connection or main connection to the recycled water system upon a finding that such connection will promote the efficient and beneficial use of recycled water and will displace existing usage of the City’s potable water supply. Fees related to water service connection to the City water system are as follows and are in addition to capacity charges established by the City Council in separate resolutions:

Any new service installations that are greater than 4 feet deep and/or require a service trench longer than 20 feet shall be charged an additional time and materials fee.

Fees to abandon services and fire lines 2” and larger shall be charged at the cost of labor and materials plus overhead. The fees shall only include materials and labor for abandoning the service to the City water system. The contractor is responsible for excavation of the existing water main, traffic control, backfilling, paving and any other costs.

A water service relocation of up to 5 feet or the addition of a meter to a service connection that has an existing meter, except as provided above, shall be charged at the cost of labor and

materials plus overhead, provided that installation of a new service connection is not required. Water service relocations of greater than 5 feet shall require installation of a new service connection at fees as specified herein.

5.3 REVIEW AND INSPECTION FEES

5.3.1 Water Distribution and Water Services Review and Inspection Fees

Fees for staff review of development plans or other proposed projects, and for site visits or inspection.

Water Distribution plan review includes evaluation of proposed water service taps or system modifications to serve proposed development, such as water main sizing, replacement, or relocation. Water Distribution site visit fees apply to pre-work order field review to confirm existing conditions and scope of work, as well as any additional site visits or on-site consultations with Water Distribution staff.

Water Services review includes staff review of service agreements, requests for service from outside existing service areas, project proposals, or evaluation of proposed development plans in relation to water metering regulations, water efficient landscaping standards, or other related items. Water Services site visit fees apply to landscape inspections for permit sign off, pre-work order field review to confirm existing conditions and scope of work for water meter related construction work, or any additional site visits or on-site consultations with Water Services staff relating to land development and/or water metering.

WATER AND WASTEWATER CAPACITY CHARGES AND POLICIES

1. CAPACITY CHARGES

Water capacity charges shall be collected prior to the Water Resources Director's approval to: 1) install a new City water meter and/or make a new connection to the City water system, or 2) increase the size of an existing water meter. If the property is also connected to the City's wastewater system, wastewater capacity charges shall also apply in the above instances.

Deleted: Public Works

Wastewater capacity charges shall be collected prior to the Water Resources Director's approval to: 1) make a new connection to the City's wastewater system from a property that does not have an existing connection, or 2) commence discharge to the City's wastewater system.

Deleted: Public Works

Such capacity charges shall be in addition to fees assessed under other resolutions for the labor, materials, equipment, and other City costs necessary to construct the actual connection to the water or wastewater system.

Water capacity charges for: 1) non-residential uses, 2) newly created single family residential units, or 3) a multi-family residential dwelling unit served by a meter larger than 5/8", are as follows, per meter*:

** Should a multi-family or single-family residential property require a meter size larger than 5/8" to primarily serve indoor domestic capacity needs, wastewater capacity charges shall not be capped at the 5/8" meter charge and shall be determined by the Non-Residential meter sizes as reflected in the chart above. The property may be subject to a site inspection by City staff to verify water use.

Capacity Charges for Multi-Family and Accessory Dwelling Unit Projects

Except as provided above, the water and wastewater capacity charges for newly permitted multi-family dwelling units and accessory dwelling units served by a separate and dedicated City water meter shall be calculated by multiplying the total number of newly proposed water supply Fixture Units times the applicable Fixture Unit cost as established in the tables below; provided, however, the wastewater capacity charge per dwelling unit for multi-family and accessory dwelling units shall not exceed the wastewater capacity charge for a 5/8" meter.

2. *REGULATIONS REGARDING ASSESSMENT OF CAPACITY CHARGES*

The following regulations shall apply to the assessment of water and wastewater capacity charges:

A. The term "multi-family residential dwelling unit" as used herein shall mean any attached dwelling unit, including attached apartments, condominiums, and secondary dwelling units.

B. Water and wastewater capacity charges shall not apply to:

   1. Water system connections for public fire hydrants, private fire hydrants, and private fire lines; and

   2. Common area meters to serve irrigation on multi-family residential properties.

C. A wastewater capacity charge shall not apply to a water meter that is classified as "Irrigation" in the City billing system.

D. Water and wastewater capacity charges shall not apply to a connection to the City's recycled water distribution system to the extent that the connection offsets existing potable water capacity.

E. In the case of an application for a water connection to serve a parcel where connections already exist, credit shall be given for existing connections such that the water capacity charges shall be based on the net increase in metered capacity. In the case of an application for a Wastewater connection to serve a parcel where connections already exist, capacity charges shall be based on the net increase in meter capacity for non-residential meters, or in the case of residential meters, the net increase in the number of dwelling units. The credit shall only be valid when the existing connections are abandoned within six months of the installation of new services.

F. There shall be no capacity charge assessed for the installation of a meter to serve a legally existing residential dwelling unit that is already being legally served by another City water meter when such installation is done for the purpose of providing separate metering to such dwelling unit.

G. There shall be no capacity charge assessed for the installation of a 5/8" irrigation meter to serve existing irrigated landscaping that is already being legally served by another City water meter when such installation is done for the purpose of providing separate metering of indoor uses and irrigation. Water use history for the property must show patterns of irrigation watering for at least two years. The property may be subject to a site inspection by City staff to verify the landscaping

is existing and irrigated. Should a customer request an irrigation meter size larger than 5/8", the capacity charge will be calculated at the applicable fee based on the meter size as provided in Section 1, less the applicable fee for a 5/8" meter. All other applicable fees, charges, and costs shall apply.

H. A reduction in meter size may be approved by the Water Resources Director in accordance with applicable resolutions; however, there shall be no refund of capacity charges upon such reduction.

Deleted: Public Works

I. When a customer voluntarily downsizes a meter, the original meter capacity will be reserved for the service connection for 12 months. If, before 12 months has elapsed from the time of the smaller meter being installed, the customer requests the original meter size to be re-installed at the same service connection, no capacity charge shall apply. If more than 12 months have elapsed, the customer will be charged the difference in capacity charge between the meter size currently installed and the size of the meter to be installed.

J. In cases where an applicant asserts that the water or wastewater capacity charge imposed under this Resolution exceeds the reasonable cost of providing the service for which the charge is imposed, or does not reasonably reflect the proportionate benefit of existing public facilities using the methods contained herein, an applicant may appeal the determination of the capacity charge to the Water Resources Director:

Deleted: Public Works

1. Within 30 days of receipt of the invoice for capacity charges, the applicant shall submit a written notice of appeal to the Water Resources Director. The notice of appeal shall set forth the grounds upon which the appeal is based, a proposed alternate capacity charge calculation, and all relevant issues, facts, information, and analysis necessary to substantiate the appeal. If an applicant fails to request a hearing before the Director prior to 30 days after receipt of the invoice they waive their right to appeal.

Deleted: Public Works

2. Within 21 days of receiving the appeal, the Water Resources Director shall provide a written decision.

Deleted: Public Works

3. The Water Resources Director shall have the authority to continue the determination on the appeal beyond 21 days in order to request additional information from the applicant, and consider new issues and facts raised by the applicant. The decision of the Water Resources Director is final.

WATERFRONT PARKING FEES AND HOURS OF OPERATION

Santa Barbara Municipal Code Section 10.44.152 provides for the establishment of fees in municipally owned parking lots, and the Board of Harbor Commissioners of the City of Santa Barbara has recommended adoption of the fees charged for Waterfront Parking as set forth below.

A. PARKING FEES AND HOURS OF OPERATION IN THE WATERFRONT AREA PARKING LOTS

1. Fees for parking in the La Playa East and La Playa West Lots shall be $3.50 per hour per vehicle during one day's hours of operation. Dates and Hours of operation are subject to the conditions of the Joint Powers Agreement between the City and Santa Barbara City College.

2. Fees for parking at the Cabrillo East, Cabrillo West, Harbor West, Garden Street, Leadbetter, Harbor Valet Lot, and Palm Park Parking Lots shall be $3.50 per hour per vehicle during one day's hours of operation. Hours of operation for all Waterfront Area Parking Lots including Stearns Wharf from 8:00 a.m. to 10:00 p.m. daily, including weekends and holidays.

3 The fee for parking at the Harbor Parking Lot shall be $3.50 per hour with a maximum charge of $42.00 per vehicle per 24 hours of parking. Hours of operation are 24 hours per day, year-round.

4. The City Administrator or his/her designee may make minor adjustments to fee collection, hours of enforcement, and operation for efficient administration and may change enforcement and collection when inclement weather, emergencies, or special events so dictate.

5. Annual parking permits exempting permit holders from hourly parking fees at all Waterfront Parking Lots, except Stearns Wharf and Harbor Valet Lot, shall be available to the general public at a rate of $165.00 per calendar year. Annual parking permits shall only be issued for vehicles not exceeding the size limitations set forth in Chapter 17.36 of the Municipal Code. The City Administrator or his/her designee may grant written waivers to the vehicle size limitation provided in Chapter 17.36 of the Municipal Code for parking in the Harbor Parking Lot, based on ocean-related or ocean-dependent priority need. Vehicle owners granted a waiver must purchase one ocean dependent parking permit equal in cost to one general parking permit or one slip permittee annual parking permit plus a $50.00 Oversized Vehicle fee.

6. Parking permits exempting Harbor slip permittees from parking fees shall be available at $165.00 per calendar year with a limit of one parking permit per slip permit. All slip permittee parking permits issued under this section shall require proof of California vehicle registration in slip permittee's name prior to issuance.

7. In the event a parking permit decal is lost, stolen, or damaged, a $20.00 replacement permit fee will be charged per occurrence.

8. The charge for boat trailers using the launch ramp shall be $3.50 per hour with a maximum charge per trailer of $8.00 per 24 hours of parking. Such charges shall be in addition to charges applied to the towing vehicle.

9. A wash-down fee of $1.00 for 5 minutes will be charged at the launch ramp.

10. The charge for a boat trailer exiting a parking lot without a time dated parking ticket shall be $32.00 (four times the maximum daily boat trailer charge).

11. Fee for failure to surrender entrance ticket upon exiting shall be $126 per occurrence at the Harbor Parking Lot, equivalent to a 72-hour parking session.

12. An entry fee not to exceed $25.00 may be charged under special circumstances or for special events where it is anticipated that charging on entry will be more efficient than collecting the fee on exit. The Waterfront Director is authorized to make the determination.

13. Fees for an oversized vehicle parking in Leadbetter, Harbor West, Garden Street, or the Palm Park lot shall be double the normal parking fee charged for regular sized vehicles in those lots.

B. STEARNS WHARF PARKING FEES

1. Stearns Wharf Parking Fees

a. 90 Minutes of free parking upon entry onto Stearns Wharf per one day's hours of operation. After the 90-minute free parking period, fees of $4.00 per hour or part of an hour are applicable as stated in Section C 1. Paragraph (b). Persons with disabilities who display valid disabled placards or plates will receive 90 minutes of free parking. After the 90 minutes free parking period, fees of $4.00 per hour or part of an hour are applicable.

b. The rate for parking a motor vehicle on Stearns Wharf shall be $4.00 per hour or fraction thereof during one day's hours of operation.

c. Fee for failure to surrender entrance ticket upon exiting shall be $60.00 per occurrence at Stearns Wharf.

FINANCE ADMINISTRATIVE FEES

Per Section 2.23.040 of the City of Santa Barbara Municipal Code, the Finance Department is responsible for administration of matters pertaining to accounting and reporting of fiscal affairs for the City. In administering these matters, the following fees will be established:

Local governments are permitted, but not required, to accept credit and/or debit cards as a form of payment. As a convenience to our customers, the City of Santa Barbara facilitates the use of credit cards.

Effective July 1, 2024, a (4%) managed service fee will be applied to all credit card purchases made for municipal services and programs through the City of Santa Barbara. This fee will apply specifically to credit card payments made to the City for programs and services such as utility billing payments made through electronic means, and various other City permits and program fees. This fee will help offset third party payment processor credit card payment fees and is not revenue to the City.

We appreciate your understanding and continued support.

Declined Check Payment Fee - If a check payment is returned by the banking institution for insufficient funds, the following fees will be assessed:

The first occurrence	not to exceed $25
The second and any subsequent occurrence	not to exceed $35

General Copy Fees:

Up to 11x17 black and white	$0.10 per page
Up to 11x17 color	$0.20 per page

Delinquency Fee: $15.00 per account, per month, for any billing period in which a delinquent unpaid balance exists.

The Finance Director, or their designee, has the authority to reduce or waive the delinquency fee to ensure unpaid balances are paid in full in a timely manner.
