City of Santa Barbara PUBLIC WORKS

Mission

Provide the community with the sustainable foundation to thrive by delivering quality services and public infrastructure through efficient and fiscally responsible practices. Provide for the public's needs relative to transportation, water, wastewater and City owned buildings.

About Us

Public Works delivers a wide range of utility and infrastructure services in an efficient and cost effective manner. Responsibilities include the planning, design, construction, and management of the Capital Improvement Program projects, transportation system, city streets, public drainage, street lights, traffic signals, City buildings, and other City infrastructure facilities. Public Works also ensures safe treatment and reliable distribution of high quality water and the collection and treatment of wastewater. Public Works manages the maintenance and replacement services for the City's fleet and buildings.

Clifford M. Maurer, P.E.
Public Works Director

City of Santa Barbara Public Works
630 Garden Street
Santa Barbara, CA 93101
