

## PROJECT TITLE: FY21A Water Main Replacement

### WHY THIS PROJECT?

The City is replacing aging water main infrastructure, including old piping, valves, and hydrants, in order to maintain the quality and reliability of water service.

### PROJECT BENEFITS:

The project will replace approximately 3.5 miles of water main infrastructure throughout the City. This supports the City's goal of replacing 2% of water mains per year insuring a reliable water system for years to come.

### QUICK FACTS

**Location:** Various locations throughout the City (see next page)

**Construction Schedule:** fall 2021 to spring 2023

**Total Project Costs:** \$4,957,590

**Funding Source:** Watermain Replacement
