

Water Plumbing

City vs Lincolnwood Customer Responsibility

All piping and plumbing issues, including leaks, beyond the City meter are the property owner's responsibility. If you experience a property leak, it is recommended to contact a local plumber to make the necessary repairs. If you observe leaks in the street or City side of the meter, please call (805) 564-5413.

** If you don't have a shut-off valve at your house, you may want to consider having one installed. These valves make it easier to shut off water if you have a leak and help you to determine if the leak is indoors or outdoors.*
