

**DECLARATION OF EMERGENCY PURCHASE PURSUANT TO
SANTA BARBARA MUNICIPAL CODE § 4.52.080**

I, Mike Wiltshire, Waterfront Director, declare the following:

Work done under a maintenance and repair Purchase Order No. 32301039 was recently completed by Brian Adair to provide emergency services for environmental cleanup, to avoid additional flooding, and to prevent more erosion along the Waterfront commercial area in the amount of \$ 50,000.

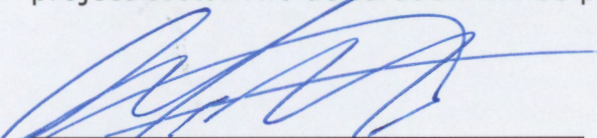

The message shall comply with Municipal Code Section 4.52.080 requiring Department Head declaration in writing of the need to make an emergency purchase order.

Mike Wiltshire has authorized work under an emergency purchase order related to temporary first response repairs of the Waterfront.

During storm event, it was revealed that there is no rip rock west of the Yacht Club main parking lot, and other infrastructure exposed and vulnerable. These conditions exposes the Waterfront to property loss, and disruption to utility services during existing and future storm events impacting life and safety. After assessing the project design and permitting with a civil engineer, additional emergency funds will be requested. This additional work will be approximately \$150,000 and will require going to council after the fact for authorization.

Following ordinary purchasing procedures would have required additional time to solicit proposals and execute a contract. In addition, the extra time to solicit multiple proposals would have impacted loss of property and assets, therefore there is urgency to get this work done now.

The work is funded by the Waterfront Fund which has sufficient funds to cover the project costs. The declaration will be posted on the City's website.

Mike Wiltshire
Waterfront Director
