

PROJECT TITLE: FY2022B PAVEMENT MAINTENANCE

WHY THIS PROJECT?

The Fiscal Year 2022B Pavement Maintenance (Overlay) Project consists of grinding off deteriorated asphalt pavement and overlaying with new asphalt on various high-priority streets throughout the City. Additionally, the Project will construct concrete improvements including pedestrian access ramps for compliance with the Americans with Disabilities Act (ADA), bicycle safety improvements, repair of damaged sidewalks, repair of curbs and gutters, and traffic signal upgrades.

PROJECT BENEFITS

This Project will eliminate minor road defects and structural failures and create a much smoother road surface, thereby improving road safety. In addition, the Project will upgrade pedestrian access ramps to meet ADA requirements, construct the City portion of the Modoc Road Bicycle and Pedestrian Path, make minor repairs to adjacent sidewalks, curbs and gutters, and upgrade traffic signals for improvements to pedestrian and roadway safety.

QUICK FACTS

Key Locations: See page two for planned locations.

Design Schedule: Complete

Construction Schedule: spring 2023 – winter 2024

Total Project Costs: \$11,000,000

Funding Source: The Project is funded by Measure C, State Gas Tax (SB1), Measure A, and Local Surface Transportation Program (LSTP) Grant funds
