

**DECLARATION OF EMERGENCY PURCHASE PURSUANT TO
SANTA BARBARA MUNICIPAL CODE § 4.52.080**

I, Clifford M. Maurer, P.E., Public Works Director, declare the following:

1. Work will be done under a maintenance and repair purchase order (Purchase Order No. 32301374) by Alliance Environmental Group, LLC. to perform cleaning to the duct system throughout the Central Library in the amount of \$57,815.00.

2. Work includes cleaning of the package units serving the Library, HEPA Vacuum interior plenums, and registers. Disinfect internal duct surfaces, treat and pressure wash coils and fans. All work is performed per NADCA ACR 2021 and will have photo documentation and daily reports.

The message shall comply with Municipal Code Section 4.52.080 requiring Department Head declaration in writing of the need to make an emergency purchase order.

Jesse Wheeler has authorized work under an emergency purchase order related to the remediation of dust particulates in the areas mentioned above.

During the work being performed for the Central Library Renovation Project, it was relayed that dust had migrated from the contractor's barricaded area of work and had spread throughout the building. This condition was unplanned and needed to be addressed because of the potential exposure to silica dust by City staff and public visitors of the Library.

Following ordinary purchasing procedures would have required additional time to solicit proposals and execute a contract. In addition, the extra time to solicit multiple proposals would have left a potentially unsafe condition throughout the building, therefore there is urgency to get this work done now.

The work is funded by Measure C Funds already budgeted for the Central Library Renovation Project. The declaration will be posted on the City's website.
