

PROJECT TITLE:

Wastewater Main Rehabilitation Project Fiscal Year 2023

PROJECT OVERVIEW: The project consists of trenchless rehabilitation of approximately 2.59 miles of aging sewer pipes. The pipes were selected based on the City's Sewer System Management Plan, which helps prioritize the most important locations.

PROJECT BENEFITS: This type of rehabilitation allows for the continued, uninterrupted operation of the wastewater collection system. This system is a continuous barrier that maintains the health and wellness of the environment. Rehabilitating sewer lines provides City residents safe, reliable, and cost-effective sewer services for generations to come.
