## Detailed Instructions

This form must be completed by a Licensed Professional such as an Architect, Engineer, General Contractor, or other qualified individual with an understanding of California Accessibility after performing a thorough site inspection.

Provide the Project Address and the building permit Case Number (if known).
Put the cost of construction for this project in Line 1a.

Put the cost of any construction in the last 3 years in Line 2 a .
Put the sum of Lines 1a and 2a in Line 3a.
Multiply Line 3a by . 2 (20\%) and put that amount in Line 4 a. This is the minimum amount that must be applied to make non-compliant Path of Travel items compliant. NOTE: This amount is in addition to the adjusted total cost of construction, not a portion of it.

If all of the elements listed in 1 b through 6 b are FULLY COMPLIANT: check all appropriate check boxes, provide printed name, signature, license number and date. Then reproduce only Page 1 onto the plans and no further action is required.

If any of the Areas listed in $\mathbf{1 b}$ through $\mathbf{6 b}$ do not comply: provide an itemized cost in the appropriate column for each Area on sheets 2 through 4. For each improvement in the itemized list that will be provided as part of this project, place a mark in the column labeled "Compliance Required Under This Project". For each improvement in the itemized list that will NOT be provided as part of this project, place a mark in the column labeled "Hardship" (must be accompanied by an approved Relief from Unreasonable Hardship approval letter). For each improvement in the itemized list that already complies, place a mark in the column labeled "Compliant". Put the totals from pages $2-4$ in the appropriate sections on page one. Provide printed name, signature, license number and date. Reproduce pages 1 through 4 of this document onto the plans. If relief from an unreasonable hardship is granted by the Chief Building Official, that approval letter should be reproduced onto the plans as well.

19 Path of Travel - An identifiable accessible route within an existing site, building or facility by means of which a particular area may be approached, entered and exited, and which connects a particular area with an exterior approach (including sidewalks, streets and parking areas), an entrance into the facility, and other parts of the facility. When alterations, structural repairs or additions are made to existing buildings or facilities, the term "path of travel" also includes the toilet and bathing facilities, telephones, drinking fountains and signs serving the area of work.
