

## **PROJECT TITLE:** Portesuello Avenue Water Main Replacement Project

### **WHY THIS PROJECT?**

The City is replacing aging water main infrastructure, including old piping, valves, and hydrants, in order to maintain the quality and reliability of water service.

### **PROJECT BENEFITS:**

The project will replace approximately one mile of water main infrastructure on Portesuello Avenue between Las Positas Road and Mountain Avenue. This supports the City's goal of replacing two percent of water mains per year ensuring a reliable water system for years to come.

### **QUICK FACTS**

**Location:** Portesuello Avenue between Las Positas Road and Mountain Avenue

**Construction Schedule:** fall 2024 to spring 2025

**Total Project Costs:** \$1,473,200

**Funding Source:** Watermain Replacement
