City of Santa Barbara PUBLIC WORKS

Mission

Provide the community with the sustainable foundation to thrive by delivering quality services and public infrastructure through efficient and fiscally responsible practices. Provide for the public's needs relative to transportation, water, wastewater and City owned buildings.

About Us

Public Works delivers a wide range of utility and infrastructure services in an efficient and cost effective manner. Responsibilities include the planning, design, construction, and management of the Capital Improvement Program projects, transportation system, City streets, public drainage, streetlights, traffic signals, City buildings, and other City infrastructure facilities. Public Works also ensures safe treatment and reliable distribution of high quality water and the collection and treatment of wastewater. Public Works manages the City's Downtown Plaza, parking system, and maintenance and replacement services for the City's fleet and buildings.

Brian D'Amour, P.E.
Acting Public Works Director

City of Santa Barbara Public Works
630 Garden Street
Santa Barbara, CA 93101

Divisions

Administration

Michael Pease, Business Manager

Provides intradepartmental financial, workflow and management support.

Engineering

Ashleigh Sizoo, Acting City Engineer

Provides technical authority and oversight of all City Capital infrastructure projects, streets, storm drains, bridges, traffic signals, water, wastewater, and City general fund facilities. Reviews development activity for impacts on City assets and manages construction activity within the City's Public Right of Way.

Public Works Downtown Team

Sarah Clark, Downtown Team Manager

Provides transportation and neighborhood services, including Downtown parking lots, City-wide street parking management, Downtown Plaza maintenance, neighborhood transportation planning, active transportation programs, and more.

Public Works Operations

Adam Hendel, Acting Operations Manager

Provides support to City Street Operations and Infrastructure Management programs as well as the City's internal network of Fleet vehicles and Facilities. These programs oversee street maintenance, storm drain repairs, and maintenance of both city operated and owned fleet vehicles and buildings.

Water Resources

Joshua Haggmark, Water Resources Manager

Provides drinking water treatment and delivery, water supply management, water efficiency, water quality testing, wastewater collection, and wastewater treatment. One Water Santa Barbara is an integrated approach to managing water by aligning with our community goals, balancing interests, and optimizing resources.
