

VIC TRACE RESERVOIR REPLACEMENT PROJECT

City of Santa Barbara

You're invited to attend an upcoming Environmental Impact Review Meeting for the Vic Trace Reservoir Replacement Project

Join the City of Santa Barbara at two upcoming City-hosted public meetings to learn about the Project and proposed environmental impacts to be studied in the CEQA Environmental Impact Report (EIR).

The Project will replace the 70-year-old Vic Trace Reservoir and its associated pump station and connecting pipelines to ensure reliable and safe drinking water for the future.

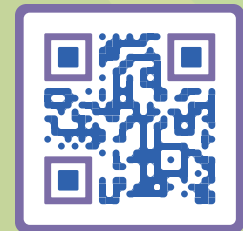

IN-PERSON MEETING

- Wednesday, December 3, 2025 from 5:30-7:00 p.m.
- Presentation at 5:45 p.m.; open house at 6:15 p.m.
- Location: Louise Lowry Davis Center
111 W. Victoria Street, Santa Barbara CA 93101
(on-site parking available)

VIRTUAL MEETING VIA ZOOM

- Thursday, December 4, 2025 from 5:30-6:30 p.m.
- Register by visiting the Project website:
SantaBarbaraCA.gov/VicTrace

ATTENDEES WILL LEARN

- Project details & timeline
- Environmental impacts to be studied in EIR including issues like construction noise and traffic
- How to provide comments & feedback

HOW TO SUBMIT COMMENTS

- In writing at the public scoping meeting
- By email: VicTrace@SantaBarbaraCA.gov
- By mail: City of Santa Barbara Public Works Department
Attn: Vic Trace Reservoir Replacement Project
PO BOX 1990
Santa Barbara CA 93102
- The Initial Study summarizing the proposed environmental impacts is available on the project website at SantaBarbaraCA.gov/VicTrace.
