## PHOTO AND FILM SHOOTS

The City of Santa Barbara offers one-stop photo and film/video permitting with Parks and Recreation as the lead department accepting applications, collecting fees, issuing the permits, and coordinating as many internal logistics among City departments such as Police, Fire, Public Works and Waterfront as possible for administrative convenience.

Fees for photo and film/video shoots include both permit and “facility use” fees. Permit fees apply to all photo and film/video shoots. If you plan to shoot in a City park, beach, Stearns Wharf or the Harbor, a facility use fee is charged, in addition to the permit fee. Fee rates depend on the location where photography or filming occurs. See the applicable Facility Use Fee charts below.

## **OUTDOOR RENTAL FACILITIES**

### **Categories:**

The City of Santa Barbara provides the opportunity for public and private use of City parks and parkland. Uses such as picnics, wedding ceremonies and private gatherings, sporting events or large community special events are categorized and fees are determined by the size, scope and duration of the event (except for group picnic sites, which are based on the site's area capacity.) Following are the categories and fee levels describe in the Outdoor Rental Facilities fee table.

Picnics P1 to P4	Based on group picnic area capacity
Private Gatherings PG1 to PG4	Corporate or individual private events. Limited to 10 hours, with a fee for extra hours beyond 10.
Wedding Ceremonies W1 to W3	Ceremonies limited to 4 hours. Can include locations other than designated reservable areas.
Sporting Events SE1 to SE6	Runs, walks, sporting tournaments, etc.
Public Events PE1 to PE6	Any event open to the public

**Set Up and Break Down Days:**

For larger outdoor events with extensive set up including canopies, stage, etc., set up and break down days will be assessed at 35% of the daily reservation fee per day or any part of one day. Dumpsters and portable toilets are exempt from the break down day charge if they are removed by 9am the following day.

**Utility Hook Ups for De La Guerra Plaza, Mackenzie Park and Leadbetter Beach Events:**

For De La Guerra Plaza and Mackenzie Park, gas, water and electrical hook ups may be made available for large public events. The activation of these utilities can either be accomplished through a licensed general contractor (or a licensed plumbing and licensed electrical contractor), or the Parks and Recreation Department can facilitate the hook-up requests through the Public Works Department. If the former is chosen, the Public Works Department will charge fees to supervise and inspect the work before and after the activation and require that a permit be obtained from the Building and Safety Department. A \$100-\$500 deposit is required to cover the estimated usage of the utilities with the amount is based on the number of utility boxes activated. Additional information on the fees and how to obtain the permit will be provided.

If the latter is chosen, approval is dependent upon Public Works' ability to schedule the necessary personnel to complete the required work for the event within the given timeframe. Requests must be submitted a minimum of four weeks in advance of the event. The base cost to activate/deactivate the plumbing is \$569.16 for the first box, plus \$94.86 per additional box. The base cost to activate/deactivate the electricity is \$141.90 for the first box and plus \$94.86 per additional box. A deposit of up to \$1,000 is also required to cover the estimated usage of the utilities.

For Leadbetter Beach, only water and electrical hook ups are available and the activation of these utilities is handled by park monitors, along with the reading of the water and/or electrical meters prior to and after the usage. Water usage is charged at \$10 per unit of water and electricity usage is charged at \$5 per kilowatt-hour or \$5 minimum. A deposit of up to \$100 is required to cover the estimated usage of the utilities.

**Vehicles in Park or Beach Areas Related to Permitted Events:**

The use of vehicles in parks and beaches is strictly controlled and restricted to authorized uses only. Unauthorized driving or parking of vehicles in park or beach areas related to permitted events will be cited and fined \$50 per vehicle.

## **WATER RATES AND FEES**

Title 14.08 of the Santa Barbara Municipal Code authorizes the City Council to set fees for water meters and water service;

Section 14.12.010 of the Santa Barbara Municipal Code authorizes the City Council to set the rate for City water for private fire services when the use of a meter is not required; and

The City does currently and wishes to continue to have in effect a water rate structure that reflects an adequate supply of water and promotes the efficient use of such water by its customers.

### **DEFINITIONS**

Wherever used in this resolution the following quoted words shall have the meanings set forth below:

- A. "Account holder" means the person or entity responsible for payment for water service at a particular property, as shown in the City's water billing records.
- B. "Base allotment" means the average monthly consumption on record with the City for the most recent complete off-peak period, or such other level of consumption determined by the Director to represent the average monthly off-peak water usage by a particular customer. An off-peak period for any given customer shall be a period comprised of the service periods charged on bills dated January through June.
- C. "Director" means the Director of the Department of Public Works or his or her designated representative.
- D. "Dominant use" means for any meter serving multiple uses, such as an existing meter serving both a residence and a commercial establishment, the use consuming the most water on average. In cases where a meter serves more than one type of use, the meter will be classified based on the dominant use for billing purposes.
- E. "HCF" means one Hundred Cubic Feet.
- F. "Service" or "water service" means water provided by or through the water distribution facilities of the City.

### **1. WATER SERVICE RATES**

The following provisions shall govern all fees related to water service for metered connections to the City water system:

A. MONTHLY SERVICE CHARGE. A monthly service charge shall be collected for all connections, without regard to actual water use, if any, as follows:

<u>Size of Water Service Meter</u>	<u>Rate (\$/meter/month)</u>
5/8"	\$24.50
3/4"	\$35.60
1"	\$57.80
1 1/2"	\$113.29
2"	\$179.89
3"	\$390.77
4"	\$701.54
6"	\$1,445.18
8"	\$2,666.07
10"	\$4,219.93

B. USER CLASSIFICATIONS. For the purposes of assessing metered water charges provided for in Subsection C below, user classifications shall be determined and corrected by Staff, using the categories below. Any meter serving multiple uses shall be classified based on the dominant use.

1. Residential Single Family Detached: Applicable to all meters serving one detached dwelling unit.
2. Multifamily 1-4 Units: Applicable to all meters serving two or more detached dwelling units and all meters serving 1, 2, 3, or 4 attached dwelling units.
3. Multifamily Over 4 Units: Applicable to all meters serving five or more dwelling units, any of which are attached.
4. Commercial: Applicable, without regard to meter size, to all accounts serving mercantile buildings, motels and other short term lodging establishments, office buildings, institutional buildings, schools, churches, and other commercial establishments.
5. Industrial: Applicable to all meters serving laundries (other than self-service laundries), manufacturing facilities, and other industrial facilities.
6. Irrigation-Potable: Applicable to meters limited to outdoor water use and subclassified as provided in Subparagraph a. through c. below. All meters under this classification shall be subject to interruption upon declaration of a Stage Three Drought Condition. There shall be no connection between a meter served under this classification and any dwelling or commercial or industrial structure.

- a. Irrigation-Agriculture: Applicable only to Potable Irrigation meters that serve bona fide commercial agricultural enterprises, including nurseries. A bona fide commercial agricultural enterprise is one that grows and sells one or more type of agricultural or horticultural products, for the purpose of producing income from the sale of these products. The amount of water made available in the first tier of metered water usage under this sub-classification shall be based on the square footage of the commercial crop area that is planted and irrigated as part of the enterprise. As a condition of the right to receive Irrigation-Agriculture service, the Director may require an Account holder to submit to the Director any documentary or other evidence necessary to establish to a reasonable degree of certainty that the property served by the meter is being used to conduct a bona fide commercial agricultural enterprise as defined above. Such evidence may include tax returns, bills of sale, or similar documents.
  - b. Irrigation-Recreation: Applicable only to Potable Irrigation meters that serve areas used primarily for passive or active recreational purposes, including parks, playgrounds, golf courses, school yards, and publicly owned open spaces and landscaped areas. The amount of water made available in the first tier of metered water usage under this sub-classification shall be based on the square footage of the irrigated area served by the meter.
  - c. Irrigation-Urban (Residential / Commercial): Applicable to Potable Irrigation meters serving properties that are primarily residential in use or are zoned for residential use or commercial, industrial, or institutional in use. The amount of water made available in the first tier of metered water usage under this subclassification shall be based on the square footage of the irrigated area served by the meter.
- 7. Recycled Water: Applicable to all meters providing recycled wastewater.
  - 8. State Institutional: Applicable to customers that are State agencies located in the unincorporated area of the County of Santa Barbara
  - 9. Unincorporated Areas: Applicable to all meters serving properties that are not state agencies and are located in the unincorporated area of the County of Santa Barbara.

C. **METERED WATER CHARGE.** In addition to all other charges imposed by Chapter 14.08 of the Santa Barbara Municipal Code, including but not limited to the monthly service charges set forth in Subsection I.A. above, water use shall be charged according to the following block rates for those user classifications defined in Subsection B above. Usage shall be measured in units of 100 cubic feet (HCF).

The allocation of the City's six water sources to customer classes and tiers is based on priority level. Each tier is charged the weighted average cost of

water based on the allocated sources. The highest priority customer tiers receive the least expensive sources of water, limited to that tier's percentage of each priorities' total demand times the water source (or remaining water source remaining from a higher priority).

1. Tier 1 Agriculture. The highest priority use is allocated to tier 1 agriculture (Ag) for efficient agricultural purposes.
2. Tier 1 Residential Single Family (SFR)/Tier 1 Residential Multi-family (MFR)/Tier 1 Recreation (Rec) for essential health and safety purposes and efficient irrigation of parks and public spaces.
3. Tier 1 Commercial/Industrial for efficient use of commercial and industrial purposes.
4. Tier 2 Residential SFR/MFR and Tier 1 irrigation for efficient irrigation needs for residential/commercial with dedicated irrigation meters.
5. Tier 2 Ag/Tier 2 Rec/Tier 3 Residential/Tier 2 Irrigation for residential and commercial dedicated irrigation meters/ Tier 2 Commercial or Industrial for inefficient use for agricultural, recreation, residential, commercial or industrial purposes.

Usage Quantities (Monthly, except as specified)	Rate (\$/HCF)
1. <u>Residential Single Family</u>	
First 4 hcf	\$4.56
Next 12 hcf	\$12.97
Over 16 hcf	\$24.27
2. <u>Multi-Family 1-4 Dwelling Units</u>	
First 4 hcf/unit	\$4.56
Next 4 hcf/unit	\$12.97
Over 8 hcf/unit	\$24.27
3. <u>Multi-Family Over 4 Dwelling Units</u>	
First 4 hcf/unit	\$4.56
Next 4 hcf/unit	\$12.97
Over 8 hcf/unit	\$24.27
4. <u>Commercial</u>	
Up to 100% of base allotment	\$6.28
All other use	\$23.94
5. <u>Industrial</u>	
Up to 100% of base allotment	\$6.28

All other use \$23.94

6. Irrigation - Potable:

The first tier of all irrigation accounts shall be calculated using the following formula:

$$\text{Monthly Water Budget} = (ET_o)(.62/748)((PF \times HA)/IE)$$

Where

- $ET_o$  = Reference evapotranspiration (weather factor)
- $0.62/748$  = Conversion factor (inches to HCF)
- PF = Plant factor
- HA = Square footage of irrigated area(s)
- IE = Irrigation efficiency (80%)

The Monthly Water Budget shall be determined using real-time monthly  $ET_o$  data from a local weather station, plant factors that relate plant type water use needs to the  $ET_o$ , and irrigated area by plant type. Irrigation system efficiency is set at a constant value of 80% for all account types.

Monthly Water Budgets shall be based on irrigated area only. Accounts shall be subject to mandatory ground-truthing measurement at Staff discretion to verify measurement accuracy of irrigated areas and plant types. If ground-truthing measurements are not completed within 2 months after initial contact due to lack of customer response, service may be subject to suspension until irrigated landscaped areas are verified in the field.

a. Irrigation - Agriculture

All Use within Monthly Budget	\$3.42
All other use	\$24.27

$HA_c$  = total crop irrigated area (square feet)

If the crop is a tree species the crop irrigated area is the number of irrigated trees multiplied by the average tree area. The average tree area is the area of a circle with a diameter equal to the average diameter of the drip line of the relevant species. An alternate method to calculate the irrigated area may be used as approved by the Director.

$PF_c = 75\%$

b. Irrigation - Recreation

All Use within Monthly Budget	\$3.77
All other use	\$24.27

$HA_t$  = total irrigated turf area (square feet)

Turf  $PF_t$  = 80%

$HA_s$  = total irrigated shrub area (square feet)

Shrub  $PF_s$  = 30%

Bird Refuge

Upon finding that there are adequate water resources available to allow such use, the Director may also authorize the sale of up to a total of 21,780 HCF (50 acre feet) per year at the first block recreation rate for use in refilling the Andre Clark Bird Refuge.

c. Irrigation - Urban (Residential/Commercial)

All Use within Monthly Budget	\$12.97
All other use	\$24.27

$HA_t$  = total irrigated turf area (square feet)

For Residential Irrigation,  $HA_t$  cannot exceed 20% of total irrigated area. If measurements are greater than 20%, the remainder square footage will be assigned to the  $HA_s$ .

$PF_t$  = turf plant factor = 80%

$HA_s$  = total irrigated shrub area (square feet)

For Commercial Irrigation, 100% of total irrigated area is considered  $HA_s$ , unless a permitted exception of Landscape Design Standards has been approved.

$PF_s$  = shrub plant factor = 30%

Plant Factor percentage allotments reflect the requirements of the City's Landscape Design Standards for Water Conservation per SBMC 22.80.

7. Recycled Water

All HCF	\$3.02
---------	--------

8. State Institutional

Up to 100% of base allotment:	\$6.28
All other use:	\$23.94

D. FAILURE TO CONNECT TO RECYCLED WATER SYSTEM. Where the Director has determined that use of recycled water is feasible at and on a particular property and has notified the account holder for the meter serving such property of this fact as described in Section 14.23.030 of the Santa Barbara Municipal Code, and thereafter the user has failed to substitute recycled water use for potable water use, the charge for provision of potable water use shall be double the otherwise applicable charge for metered water.

E. GRANTING OF ADJUSTMENTS TO EXTRAORDINARY WATER CHARGES. Upon an account holder's application that is 1) received within 45 days of a relevant billing date, 2) submitted on a form provided by the Finance Director, and 3) supported by detailed written documentation, the Finance Director, or a designee of the Finance Director, shall have the authority to make adjustments to extraordinary water charges in the event of hidden leaks, undetected line breaks, or other circumstances that are demonstrated to be beyond the reasonable control of the account holder. Such adjustments shall be made in accordance with guidelines approved by the City Administrator's Office. However, such adjustments shall in no case result in a cost per HCF that is less than the lowest unit rate for residential customers located within the City limits. The decision of the Finance Director, or said designee, regarding any such adjustment shall be final. Adjustments shall be allowed under this section only once per account, per account holder in any five year period.

F. MISCELLANEOUS SERVICES. The following miscellaneous fees related to water service shall be charged and collected upon demand:

Service Initiation Fee:	\$47
Service Restoration Fee:	\$64
Administrative Account Transfer Fee:	\$21

Declined Payment Fee: See Finance Administrative Fees

If a payment is returned for insufficient funds for a second time in any 12 month period, payments will only be accepted via cash, cashier's check, money order or credit card.

Damaged/Missing Locking Brackets:	\$126.69

**H. DAMAGE TO CITY WATER SYSTEM INFRASTRUCTURE**

City shall be reimbursed for the time and material cost to repair damage inflicted on City water system infrastructure and for any water lost as a result of the damage. Any water lost as a result of damage to water system infrastructure shall be billed at the current first block Commercial rate.

**I. LABORATORY ANALYSIS**

City shall be reimbursed at cost for laboratory analyses performed on behalf of private parties.

**J. CHANGE OF ACCOUNT HOLDER UPON TERMINATION OF TENANCY.**

Upon termination of utility service by an account holder who is a tenant, the property owner, or agent thereof, shall automatically become the account holder, provided that the City has on file a written request from such property owner or agent authorizing such change. In the event that the account holder is transferred to a new account holder willing to take responsibility for all charges incurred after the most current bill, the Administrative Transfer Fee shall apply in lieu of the Service Initiation Fee.

**2. NON-METERED PRIVATE FIRE SERVICES**

Payable monthly, the rates for City water for private fire services when the use of a meter is not required pursuant to Section 14.12.010 of the Santa Barbara Municipal Code shall be as follows:

<u>Size of Service</u>	<u>Monthly Rate</u>
1"	\$2.76
1 ½"	\$3.64
2"	\$5.16

Upon a determination that unauthorized use of water through a fire service or other private main connection has occurred, the Director may assess a fee for each HCF of such use at a rate equal to twice the rate for the first block allotment for Commercial customers.

### 3. WATER SERVICE CONNECTIONS

All determinations of the size and location of water service connections, water main connections, and meters shall be subject to the approval of the Director. All water service connections must be installed per City standard details. If not, the customer shall be charged at a time and materials basis for the service to be brought up to City standards. The Director may waive the fee for a service connection or main connection to the recycled water system upon a finding that such connection will promote the efficient and beneficial use of recycled water and will displace existing usage of the City's potable water supply. Fees related to water service connection to the City water system are as follows and are in addition to buy-in fees established by the City Council in separate resolutions:

#### A. RETAIL WATER SERVICE CONNECTIONS

## WATER AND SEWER BUY-IN FEES

Sections 14.08.050 and 14.48.010 of the Municipal Code authorize the establishment by resolution of fees to be paid for connections to the City water and sewer systems, respectively; and water and sewer buy-in fees are appropriately assessed on the basis of the flow capacity of the meter serving a given use.

Such buy-in fees shall be in addition to fees assessed under other resolutions for the labor, materials, equipment, and other City costs necessary to construct the actual connection to the water or sewer system. ## 2. REGULATIONS REGARDING ASSESSMENT OF BUY-IN FEES

The following regulations shall apply to the assessment of water and sewer buy-in fees:

- A. The term "multi-family residential dwelling unit" as used herein shall mean any attached dwelling unit, including attached apartments, condominiums, and secondary dwelling units.
- B. Water and sewer buy-in fees shall not apply to:
  1. Connections to serve facilities owned and operated by City programs funded by the General Fund; and
  2. Water system connections for public fire hydrants, private fire hydrants, and private fire lines.
  3. Common area meters to serve irrigation, laundry or other shared uses on multi-family residential properties.
- C. A sewer buy-in fee shall not apply to a water meter that is classified as "Irrigation" in the City billing system.
- D. Water and sewer buy-in fees shall not apply to a connection to the City's recycled water distribution system to the extent that the connection offsets existing potable water capacity.
- E. In the case of an application for a water or sewer connection to serve a parcel where connections already exist, credit shall be given for existing connections such that the water buy-in fees shall be based on the net increase in meter capacity and sewer buy-in fee credits shall be based on the net increase in meter capacity for non-residential meters, or in the case of residential meters, the net increase in number of dwelling units. The credit shall only be valid when

the existing connections are abandoned within six months of the installation of new services.

- F. There shall be no buy-in fee assessed for the installation of a meter to serve a legally existing residential dwelling unit that is already being legally served by another City water meter when such installation is done for the purpose of providing separate metering to such dwelling unit.
- G. A reduction in meter size may be approved by the Public Works Director in accordance with applicable resolutions; however, there shall be no refund of buy-in fees upon such reduction.
- H. When a customer voluntarily downsizes a meter, the original meter capacity will be reserved for the service connection for 12 months. If, before 12 months has elapsed from the time of the smaller meter being installed, the customer requests the original meter size to be re-installed at the same service connection, no buy-in fee shall apply. If more than 12 months has elapsed, the customer will be charged the difference in buy-in between the meter size currently installed and the size of the meter to be installed.
- I. In a case where the buy-in fee cannot be reasonably determined using the meter capacity method contained herein, a water and/or sewer buy-in fee may be determined by estimating the peak usage of water through the meter, converting such usage to an equivalent number of 5/8" meters, and multiplying said equivalent number times the buy-in fee for a 5/8" meter.

3. **REGULATIONS REGARDING RESERVED CAPACITY FEES FOR INACTIVE ACCOUNTS**

- A. As system capacity continues to be reserved for inactive accounts even when connections are not in use, accounts that have been inactive for more than 6 months shall be subject to reserved capacity fees before service can be reinstated. Fees shall be determined by the following formulas:

**WATER**

The current monthly service charge multiplied by the number of months that have passed since the expiration of the 6-month grace period.

**SEWER**

For Residential Accounts: The current monthly basic charge per dwelling unit, multiplied by the number of dwelling units on the account, multiplied by the number of months that have passed since the expiration of the 6-month grace period

For Commercial Class 1-4 Accounts: The minimum monthly service charge based on meter size, multiplied by the number of months that have passed since the expiration of the 6-month grace period

The water monthly service charge and sewer minimum monthly service charge shall be based on the meter size at the time of account termination.

If the above calculation exceeds the current buy-in fee for the meter size in question, the fee is capped at the current buy-in amount.

- B. Accounts that are inactive due to catastrophic circumstances, such as fire or other natural disasters, may apply for a waiver of reserved capacity fees, subject to approval by the Public Works Director.
