

## City of Santa Barbara Sewer Lateral Inspection Program CCTV Inspection Standards

Sewer Lateral Inspections completed for the City's Sewer Lateral Inspection Program must be submitted by a City Certified CCTV inspector and must meet the standards illustrated below.

CCTV Inspection video shall:

- Be submitted via Forward Lateral
- Be clear
- Have panoramic view of property prior to camera entering lateral
- Have footage count
- Have sufficient Light
- Be centered (camera on skid)
- In Color
- Speed Less Than 20 Ft. Per Minute
- Minimum 5 Seconds Pause at Defects

Inspections that do not meet the standards stated above will be rejected.

For questions related to these standards, contact SLIP staff at [SLIP@SantaBarbaraCA.gov](mailto:SLIP@SantaBarbaraCA.gov).
