

CITY OF SANTA BARBARA

SIGN COMMITTEE AGENDA REPORT

AGENDA DATE: July 9, 2024

TO: Sign Committee

FROM: City Attorney's Office

SUBJECT: Receive and Discuss Information Regarding Recommended Updates to the City's Sign Ordinance Provisions and the Creation of a New Chapter on Public Murals [Ordinance]

RECOMMENDATION:

That the Sign Committee consider an ordinance amending the Santa Barbara Municipal Code by amending Chapters 22.70 and adding Chapter 22.71 relating to signs and the display of public murals onto private and public structures.

DISCUSSION:

The City's sign ordinance is codified under Chapter 22.70 of the Santa Barbara Municipal Code (SBMC). Over the past decade, several court decisions affecting sign regulations have been issued. These court decisions discuss the First Amendment and "freedom of speech." The most significant of these decisions occurred in 2015 when the U.S. Supreme Court ruling in *Reed v. Town of Gilbert* limited the ability of local governments to regulate signs on the basis of their content or message. For a local ordinance to be considered content-neutral, regulations should be based on the "time, place, and manner" of a sign, rather than the message the sign conveys.

The level of judicial review differs based on whether a sign is in a "public forum," which is a place typically used for expressive conduct such as streets or sidewalks, or a "non-public forum," which is a place not typically used for expressive conduct such as private property such as businesses. If a regulation affecting signs in the public right-of-way is "content-based," a court will only uphold the regulation if it: 1) serves a compelling government interest; and 2) is narrowly tailored to serve that interest. A regulation affecting signs on private property will be upheld if it is: 1) reasonable; and 2) content neutral.

With this background in mind, the amendments made to the Sign Ordinance aims to revise the City's regulations to be constitutionally sound and legally defensible, while protecting the community's visual character. Unfortunately, the sign ordinance currently includes content-based regulations. For example, the City's Ordinance carves an

exception to allowing real estate open house signs to be placed in the public right- of - way to the exclusion of all other types of signs. That lone exception is content based (commercial open house) and therefore considered unconstitutional under *Gilbert*. Essentially it must be an all (very limited exceptions) or nothing proposition when it comes to the regulating content of signs in the public right of way. The proposed amendments represent a targeted approach to come into alignment with the content neutrality requirement in *Gilbert*, rather than a wholesale revision of the City's regulations when it comes to aesthetics.

The other major change is developing a new Chapter (22.71) dedicated to the display of public murals onto private and public structures. Because Murals are defined as a work of visual art that does not convey a commercial message, it should not be construed as a sign or part of the Sign Ordinances standards and process. Instead, staff is recommending review of Murals be conducted by the Arts Advisory Committee.

Amendments to Chapter 22.70- Sign Regulations

The following is a list summarizing the proposed amendments:

Section 22.70.010

This Section provides the overall purpose/reasons behind sign regulations. The proposed amendments are intended to protect the constitutionally guaranteed right of free speech when it comes to signs as well as including a statement that the Ordinance complies with applicable state law.

Section 22.70.020

This section in the Ordinance contains the definitions of various applicable terms. Changes made to this section were based upon adding new definitions based on issues frequently encountered by staff, adding clarifying language to existing definitions, or providing definitions to commercial and non-commercial speech. In addition, the definition of a Portable sign has been updated to include A-frame or sandwich board signs.

Section 22.70.030

This section provides for when a City permit is required to erect a sign, and it also differentiates between signs that are exempt from obtaining a permit and those that are not. Aside from some cleanup of the Ordinance, some of the major changes to this section includes:

- Creating an exemption to a obtain a permit for any noncommercial on-site sign not exceeding six square feet total for each lot in residential zones and 24 square feet total for each lot in nonresidential zones so long as permission was given by

the property owner or tenant. This residential exception adheres to the Constitutional principal of not favoring commercial speech over noncommercial speech, balances out the temporary exception to political signs, while still adhering to the City's aesthetic values by having size limitations. In addition, this provision also balances the allowance of commercial on-site temporary open house signs.

- The removal of allowing off-site open house signs in the public-right-of-way (ROW) and adding the prohibition of any signs being erected in the ROW other than official government signs or hazard or prohibition signs required by law. The exception of allowing open house signs to the exclusion of not permitting other signs is content base and at the heart of the *Gilbert* case. Consequently, by not allowing any signs to be placed in the ROW, except for government and safety signs, the City will be able to enforce/remove any signs placed there.
- Removing all content-based exceptions such as large commercial grand opening signs and tying the definition of obscene material to State law under Section 311 of the California Penal Code.
- While the ordinance already prohibited Portable signs such as A-frame or sandwich board, the Ordinance also prohibits the placement of signs that impeded pedestrian and ADA access.
- Amending the ordinance to make clear that the primary and general elections are considered separate elections for the purposes of the ordinance when it comes to election signs.

22.70.050 Sign Permits

This section concerns the process for obtaining a sign permit including review and appeal. Changes were made to this section to ensure that any review is not content based. In addition, language was placed in the Ordinance to ensure that the Sign Committee conducts their review in a content-neutral manner and that any review is limited to a sign's physical attributes.

22.70.80 & 22.70.90 Nonconforming or illegal signs

These sections deal with the amortization of nonconforming signs and the removal of illegal or unsafe signs. The deletions made in this section were due to the ordinance being outdated and thereby containing antiquated or defunct processes and law. The Fifth Amendment applies to signs when considering the removal or amortization of signs (private property cannot be taken without just compensation). Government may lawfully require the removal of illegal or unsafe signs without raising significant takings issues. However, requiring the removal of a lawfully erected and well-maintained sign that has simply become nonconforming because of regulation enacted after the sign was erected

can give rise to a takings challenge. Hence, the Ordinance continues to provide such protection.

22.70.100 Enforcement

The major change to this section requires the Sign Committee to be the administrative body to hear any appeals on fines. This is due to a recent 2024 California Court of Appeals case, *Temple of 1001 Buddhas v. City of Fremont*, in which the Court held that a city's code could not provide for an administrative hearing for appeals of building code violations by a single hearing officer, but the City must allow for appeals to be heard by a board, agency, or other governing body.

The Addition of Chapter 22.71- Public Murals

The definition of Murals has lived under the Sign Ordinance. Because of that, issues arose over whether a mural constituted a sign and whether the same regulations, processes, and enforcement were required. The development of this new Chapter ends that debate by creating a mural ordinance that contains an application and review process for murals on private property.

This Ordinance is strictly for public murals on private commercial buildings within the City, voluntarily proposed by property owners. Because Murals do not constitute a sign, but instead a work of visual art that does not convey a commercial message, the appropriate body to review any proposals should be the City's Arts Advisory Committee. A resolution will be required to be approved by the City Council to expand the Arts Advisory's purview over this area.

A Mural is to be defined as:

“A one-of-a-kind, hand-painted, or hand-tiled work of visual art that does not contain any commercial message that is either affixed to or painted directly on the exterior wall of a structure with the permission of the property owner. An original art display does not include: mechanically produced or computer generated prints or images, including but not limited to digitally printed vinyl; electrical or mechanical components; or changing image art display.”

As with the Sign Ordinance, the regulations must be content neutral. The Arts Advisory Committee, in its review process, will be required to make specific findings in approving a mural that include the following: A) The mural proposal presents an innovative and unique artistic vision, including technique, composition of visual art elements, use of line, color, form, texture, materials, and suitability; B) The proposal complements the architectural design of the building on which the mural is proposed to be placed; C) The wall must have the structural integrity to safely hold any proposed materials; D) The proposal does not detract from the character of the surrounding area or neighborhood. In

addition, this Chapter has specific maintenance and removal requirements that must be adhered to by the property owner.

AN ORDINANCE OF THE COUNCIL OF THE CITY OF SANTA BARBARA AMENDING THE MUNICIPAL CODE BY AMENDING CHAPTER 22.70 PERTAINING TO SIGN REGULATIONS AND BY ADDING CHAPTER 22.71 REGULATING THE DISPLAY OF MURALS

THE CITY COUNCIL OF THE CITY OF SANTA BARBARA DOES ORDAIN AS FOLLOWS:

SECTION 1. Chapter 22.70 of Title 22 of the Santa Barbara Municipal Code is amended to read as follows:

22.70.010 General Provisions.

A. TITLE. This Chapter shall be known and cited as the Sign Ordinance of the City of Santa Barbara.

B. PURPOSE AND INTENT. The City of Santa Barbara has a national and international reputation as a community of natural beauty, distinctive and historic architecture and historic tradition. Signs have a strong visual impact on the character and quality of the community. As a prominent part of the scenery, they attract or repel the viewing public, affect the safety of vehicular traffic, and their suitability or appropriateness helps to set the tone of the neighborhood. Since the City of Santa Barbara relies on its scenery and physical beauty to attract tourists and commerce, aesthetic considerations assume economic value. It is the intent of the City of Santa Barbara, through this chapter, to protect and enhance the City's historic and residential character and its economic base through the provision of appropriate and aesthetic signing. In addition, it is the intent of the City to limit the size, type and location of signs in order to minimize their distracting effect on drivers and thereby improve traffic safety.

In view of these facts, the City of Santa Barbara adopts the policy that the sign should serve primarily to identify an establishment, organization or enterprise and protect the constitutionally guaranteed right of free speech. -As identification devices, signs must not subject the citizens of the City to excessive competition for their visual attention. As appropriate identification devices, signs must harmonize with the building, the neighborhood and other signs in the area.

C. COMPLIANCE WITH CHAPTER. It is unlawful for any person to construct, maintain, display or alter or cause to be constructed, maintained, displayed or altered, a sign within the City of Santa Barbara except in conformance with this Chapter.
